B.SIDE: TECHNOLOGIES AND INNOVATION.

La collezione di cassetiere B.Side rappresenta una vera innovazione nell'ambito delle soluzioni per l'archiviazione. Le moderne tecnologie produttive e la ricercatezza progettuale rendono questa cassetiera robusta e duratura. I cassetti hanno struttura realizzata in un pezzo unico e sistemi di scorrimento su guide a rulli o a sfere che li rendono affidabili e silenziosi. I frontali sagomati realizzano un efficace sistema di apertura con presa su entrambi i lati. Un contenitore personale configurabile dall'utente secondo nuove modalità funzionali.

B.Side pedestal collection represents a real innovation in the storage solution field. The modern production technologies and the refinement of design provide a strong and lasting pedestal. Drawers have a structure made in a single piece and system slideways on roller slides or telescopic roller slides extremely reliable and silent. The shaped fronts provide a bi-lateral opening. A customized storage system with new functional modes.

La gamme des caissons B.Side représente une nouveauté dans les solutions de rangement. Les technologies modernes et la recherche de la production donnent à ce caisson robustesse et durée. Corps en un seul bloc et systèmes de rails à billes ou à galets pour un mouvement silencieux et haute fiabilité. Les façades ont une préhension sur les deux côtés et permettent une personnalisation de l'utilisateur.

Il design minimal delle cassettiere B.Side le rende ideale complemento per ogni ambiente di lavoro moderno. La struttura dall'ingombro ridotto, il cassetto con prese laterali e serratura, le ruote a scomparsa sono le principali caratteristiche che ne descrivono l'aspetto estetico. Disponibili sempre con guide a sfera o rulli e con cassetto portacancelleria e classificatore le cassettiere B.Side sono proposte in versione monocolore (bianco e metallizzato) o bicolore con la possibilità di personalizzare i frontali con i colori verde chiaro, rosso, azzurro e prugna.

The minimal design of the drawer b.side makes perfect addition to any modern working areas. The space-saving structure, the lateral opening drawer with lock and the "invisible" wheels are the main characteristics of aesthetical point of view. Available with roller or roller telescopic slides and with pen-tray drawer or filing drawer the B.Side pedestals are offered in one colour (white and metal) or double colour with the possibility of customizing metal fronts using the colours light green, red, light blue and plum.

Les caissons B.Side, grâce au design essentiel, sont un complément idéal pour toutes les ambiances modernes. Principales caractéristiques: corps de petites dimensions, préhension latérale et serrure, roulettes invisibles. Disponibles avec coulissement à bille ou à galet, tirette plumier et classeur. Les caissons B.Side sont proposés dans la version monocolore (blanc et aluminium) ou bicolore avec la possibilité de personnaliser les façades des tiroirs avec les coloris: vert clair, rouge, bleu, azur et prune.

I componenti delle cassettiere B.Side sono realizzati in metallo (struttura, frontali e retro) sfruttando moderne tecnologie produttive che assicurano elevati standard qualitativi e praticità di utilizzo senza pari. La versatilità progettuale ha permesso di realizzare un modello B.Side con guide a rulli o sfera e una maniglia in metallo a scelta di interasse mm. 160. Destinata a chi cerca un prodotto dall'aspetto più tradizionale, la cassetiera conserva tutte le qualità prestazionali e le stesse possibilità di abbinamento.

The components of B.side pedestals are in metal (structure, fronts and rear) taking advantage of modern production technologies which guarantee the highest quality standards and functionality. The design versatility gave us the possibility to produce a Bside model with roller or ball bearing slides and a metal handle at choice, distance 160 mm. Suitable for those who want a more traditional item, the pedestal retains all the performance qualities and the same matching possibilities.

Les composants des caissons B.side sont réalisés en métal (structure, façades et dos) avec une technologie moderne qui garantit un haut standard de qualité et une utilisation facile. Notre processus de production a permis de créer un modèle Bside avec coulissement à bille ou à galet et une poignée en métal avec entraxe 160 mm. Destiné à une clientèle à la recherche d'un produit traditionnel, le caisson conserve les mêmes qualités et les mêmes possibilités d'assortiment de coloris.
